

EDITORIAL COMMENTS.

We have heard some very favorable comments about yesterday's rain.

There are five candidates for Commonwealth's Attorney in the Mayfield district.

The editor of the KENTUCKIAN began his newspaper career 36 years ago today.

Make yourself one of a million of people to go to Sunday School in Kentucky Sunday.

The jury in the Roosevelt libel case at Syracuse, N. Y., is made up of 7 Republicans, 3 Democrats and 2 Progressives.

Robt. E. Jeffrey, of Mt. Olive, Ark., the new Minister to Hungary, carried a bride with him to his new post this month.

A prisoner says the Germans have gas bombs three feet in diameter. They must belong to the equipment of the war correspondents.

The booster trip into eastern Kentucky to be made by the Louisville Commercial Club will occupy four days and will cover about 800 miles.

Jim Lemon is cutting a little wider swath at Mayfield. His paper, the Messenger, has been changed from six columns to seven columns.

Chas. Grove and Miss Lillie Bogard, who were secretly married at Mt. Washington, Ky., August 14, 1914, announced their marriage at church Sunday night.

May wheat at Chicago broke seven cents Tuesday and wiped out the suckers who were betting on another fellow's trick and then went up again six cents to \$1.63½ at the close.

Mexicans fired at a U. S. army bi-plane flying over Ft. Brown, Texas, Tuesday. Matamoros, opposite, is occupied by Carranza troops. About 50 shots were fired, but no harm was done.

The Germans are now maintaining a defensive campaign in the West, in the face of the fierce drives of the Britons. The offensive movement to drive them out of Belgium and France is about to begin.

John Wesley Gaines, of Nashville, was tried on a charge of slapping a man who called him a liar, in Washington. No fine was imposed but Mr. Gaines devoted \$10 to the policemen's pension fund.

The Consular dispatches from Mexico to the state department confirmed Carranza claims of a great victory for General Obregon over General Villa at Celaya, and told of Villa's retreat northward, destroying the railroad as he went. Villa's losses in the six days' fighting ending Saturday were estimated at 6,000 killed and wounded.

A Confederate "hardtack" cracker is in the possession of a lady of Hartsville, Tenn. It is browned by its fifty-two years of age and by its days of exposure on the old battlefield. The old cracker, a hunk of flour and water, is two inches square and an inch thick and a perfect specimen of Confederate army hardtack. It was picked up on the field on July 3, 1863, by Lounds Saunders, one of Jeb Stuart's cavalymen, and sent to Miss Liella Roberta Perkins of Bedford City, Va. She is now Mrs. A. J. Hall of Hartsville.

Congressman A. W. Barkley, of the First District, introduced Senator Beckham when he lectured on temperance at Paducah Tuesday night, and declared himself not in accord with the Democratic platform upon which he was elected, but in favor of the independent movement for State-wide prohibition. His position is significant from the fact that the Mayfield paper, one at Clinton and one at Paducah, all Democratic, have opposed the injection of the State-wide question into the state campaign.

APRIL SHOWERS BRING RELIEF

Began Falling At 4:30 Yesterday Morning and Have Done Great Good.

GENTLE AND REFRESHING

Extended To All Parts of The County and Farmers Are Glad.

Droughts always come to an end and the great Spring drouth of ten weeks came to a happy conclusion yesterday in Christian county. The first showers of any consequence since early in February began falling before daylight, starting off with a good hard downpour for a few minutes. At intervals during the morning, gentle refreshing showers fell, ending the worst spring dry spell ever known in this county. Christian has suffered more than many other counties. Henderson and other river counties had a fine rain ten days ago, and Caldwell and Lyon had showers. The rains have done incalculable good. Plantbeds were barely alive, many of them not half way up. Corn was unsprouted in the ground. Wheat was at a standstill. Dust rose in many fields as the crops were being planted. Pastures were backward. The roads were clouds of dust with every passing vehicle. Tobacco crops in many instances were hanging dry in the barns. The spring season had been retarded for a month by the entire lack of rain. All this has been relieved and every farmer's face is wreathed in smiles.

For what we have already received, for what we are still receiving and for what the weather clerk has in store for us, let us all be thankful and go to Sunday School next Sunday.

McGregor-Marshall.

Mr. J. W. McGregor, of Princeton, Ky., and Mrs. Lulu Marshall, of Guthrie, Ky., were united in marriage at Clarksville Monday morning, at the office of the County Court Clerk. The groom is a substantial farmer of Caldwell county.

CHANGE ON MAIN STREET

Wall & McGowan Buy One Department of J. K. Hooser's Business.

The firm of Wall & McGowan has bought out the gents' furnishing goods department of Jas. K. Hooser, next door to them, and are now engaged in invoicing the stock and will move it as the work is completed.

Mr. Hooser will remain in business, giving his entire attention to his large and increasing tailoring business, which has always been his leading line.

The Hooser stock of furnishing goods is high class and new. It will be put on the market at a bargain price by Wall & McGowan, offering wonderful opportunities to those needing such goods.

Col. Milward Dead.

Lexington, Ky., April 21.—Death came to Col. William R. Milward in his seventy-fourth year Monday night at the Good Samaritan Hospital where he had been removed a few days ago in hopes of saving his life. The veteran soldier had been ill for several months of uraemic poisoning. Col. Milward was one of the few Union soldiers who were honorary members of the United Confederate Veterans.

Bell School Closes.

Miss Paulette Davis' school at Bell, will close with special exercises at the schoolhouse this evening.

A fine program has been prepared and the public is invited.

UNIT LAW UPHELD

Court of Appeals Decides Several Contests In Favor of Drys.

ON TEST CASES SENT UP

Sustains Local Option Elections Held In Bourbon, Montgomery, Scott and Shelby.

Frankfort, Ky., April 21.—The Court of Appeals yesterday upheld the County Unit Act as amended in 1914, thus holding valid the elections last year in Bourbon, Montgomery, Scott and Shelby counties, all of which voted dry.

The contention was made that the act of 1914, allowing 25 per cent of the voters of a county instead of 25 per cent of each precinct, to call a local option election, repealed the county unit law of 1912. But the court said it did not.

The court said: "The vote of the county controls all parts of it including cities, towns, districts and precincts and this conclusion disposes of the right of Shelbyville, Georgetown, Mt. Sterling and Paris to have separate elections and to regulate and control for themselves the sale of liquor within their own limits."

PUCKETT'S NEW STEED

Will Make His County Trips Riding a Motorcycle.

County Agriculturist, S. C. Puckett, will make his trips over the county in a latest model Harley-Davidson motorcycle purchased for him at an expense of \$300, by the Christian County Crop Improvement Association. The machine is expected to be here by the end of the week. Mr. Puckett is being put through a course of instruction in handling it and is expected to be able to "buck" it when it is turned over to him. This method of transportation was hit upon as a compromise between a horse and buggy and an automobile.

CLEANING UP THE CITY

Wagons Had Not Finished On West Seventh Street Yesterday.

The City wagons have been engaged this week in cleaning up, under the direction of W. R. Crawley, sanitary inspector. Work was begun on the West Side Tuesday and was not finished and the rain yesterday morning caused a delay. The Southern part of the city will be visited next and refuse piled in or near the streets will be hauled away free of charge.

All refuse is being hauled outside the city to a low place in a lot owned by W. T. Williamson, east of the old workhouse property.

Forest Fires Raging.

Lexington, Ky., April 21.—Reports reaching here yesterday told of forest fires sweeping across vast areas in the eastern Kentucky mountain district. Floyd, Martin, Letcher and Pike counties are said to be in the path of the blaze, and already, according to reports, miles of farmers' fences and numerous isolated buildings of farmers' have been destroyed. It is believed the fires which raged in the stricken sections two weeks ago and were partially extinguished by rain were simply smothered and have broken out anew.

Back on Duty.

Officer Broussais Gregory, who has been off duty for a month, is able to resume work on the police force this week, though still showing the effects of his recent illness.

BEAUTIFY BACK YARDS

Ladies Are Vying With Each Other In Raising Pretty Flowers.

MUCH CIVIC PRIDE SHOWN.

Many Lots Are Under The Care of Landscape Gardeners.

A great many citizens have caught the spirit of civic improvement and are indulging their taste for flowers to beautify the back yards. Many of the ladies are displaying enthusiasm in the culture of plants, shrubs and flowers. Nurserymen have filled many large orders and some yards have been platted and planted for the first time.

Some of them make a specialty of the old-fashioned flowers, such as lilacs, snowballs, calacanthus, altheas and other shrubs and such hardy plants as peonies, phlox, chrysanthemums and blue bells.

Many yards were gorgeous with buttercups and crocuses a month ago and just now the hyacinths and tulips are holding sway.

Rose gardens are plentiful. Last winter was a hard one on roses and many of them were killed to the ground and are just putting up fresh shoots.

Some of the very early shrubs have already bloomed or are now blooming. One of the prettiest shrubs in the city is a Japanese Magnolia in the yard of Mr. Will Kimmons. It has already shed its blossoms, which appeared in great profusion, covering the entire tree, about the first of April.

Mrs. Kimmons is one of the ladies on South Main street who is devoting much attention to her flowers.

Mrs. R. E. Cooper has beautified the back yard of her new home on South Main, which will in time be equal in beauty to any in the city.

Mrs. John L. Harvey, whose home has been remodeled, is also paying much attention to planting shrubs and flower beds.

One of the most attractive side yards, is one jointly owned by Mrs. M. G. Rust and Mrs. H. M. Frankel, where many beautiful roses bloom every year.

Miss Johnnie Beard, on Fourteenth street, has long had one of the handsomest flower gardens in that part of the city.

In every part of the city beautiful flowers will be seen from now on. There is scarcely a home in the city where some flowers are not found. Even the colored people raise them, many of the humblest cabins being in veritable rose gardens.

A great deal of this interest has been aroused by the local florists, T. L. Metcalfe and W. F. Snyder. Mr. Metcalfe has one of the largest floral plants in Kentucky, with branch greenhouses in several neighboring cities. Just now he is one of the busiest men in town, as the season for selling potted plants is at its height.

The ladies generally are preparing for a great profusion of summer and autumn flowers.

Among these nasturtiums, asters, gladioli, tube roses, clematis, sweet peas and scabiosas are universally popular. Later will come the dahlias, cosmos and chrysanthemums and such old favorites as zinnias, marigolds and salvias that bloom until frost.

Miss Fannie Rogers, the Main street milliner, has had some flower beds made in the yard in the rear of her store.

Miss Virginia Lipscomb, the librarian of the Public Library, has made the little yard back of the library a thing of beauty.

Out at the State Hospital the flower gardens have always been given special care and they contain many very beautiful flowers.

The love of flowers is everywhere shown on the lots at Riverside Cemetery. The Superintendent, Mr. R. D. Reeder, has much taste in such work and the flower beds on the many lots are beautifully cared for.

BIG CROWD TO K. E. A.

Headed By Superintendents L. E. Foster And J. W. Marion.

MORE THEN 50 IN PARTY

Will Attend The Three Days Session in Louisville This Week.

A special train that started at Madisonville yesterday, took on a delegation of 53 teachers and others interested in education, when the train stopped here at 12:20 p. m. The delegation was headed by Supt. L. E. Foster and Mrs. Foster and the party will attend the meeting of the Kentucky Educational Association, which met in Louisville last night.

There were other delegates from Hopkins on the train and many others were taken on between here and Louisville.

The Hopkinsville party was as follows:

OFFICERS.

Superintendent of Schools L. E. Foster and Mrs. Foster.

TRUSTEES.

W. F. Lacey, C. R. Fowler, P. P. Gladdish, R. F. Pool, J. C. Johnson, L. M. Hill, J. T. Simpson, J. R. Marquess, A. L. Renshaw, T. M. Harned, L. R. Yancey, Edgar Harned, T. N. Chester and A. L. Elgin.

TEACHERS AND OTHERS.

HOPKINSVILLE—Supt. J. W. Marion, Prof. Pete Edwards, Mrs. Willie Watson, Misses Martha Ellis Soyars, Lizzie Knight, Florence Gray, Katherine Major, Elizabeth Hays, Bessie Gary, Annie Hoard, Tommie Hord, Georgia Major, Mattie Mayes, Edna West, Tommie Harned, Eunice King, Grace Gates, Mr. and Mrs. Will King, L. B. Castile, Luther Ladd, Hubert McCown, Miss Owen and Miss Elizabeth Golladay.

PEMBROKE—Prof. B. F. Brown, C. E. Mann, Dr. and Mrs. T. P. Allen, Ewin Boxley, Mrs. A. W. Croft, Misses Camille Lackey, Dovie Anderson, Theresa Cannon, Martha McClanahan.

FAIRVIEW—L. G. McGinley, Miss Bettie Lewis Boyd, Miss Burrus.

FINE YIELD OF TOBACCO

Jas. C. Johnson Makes Nearly \$3,400 on a 40 Acre Field!

Jas. C. Johnson has finished delivering a crop of 39½ acres of tobacco that made a yield of 51,750 pounds, an average of a little more than 1,300 pounds an acre. It was raised in a field of 40 acres, the other half acre being in watermelons.

For that number of acres, taking an entire field, this yield has probably never been excelled in the county. Ordinarily a yield of 1,000 pounds to the acre is considered a good crop.

The crop was sold at \$6.50 and \$6.75 and brought \$3,394.37, a yield of more than \$85 an acre. The crop was grown on Mr. Johnson's farm 2½ miles from town, on the Newstead pike, known as the Ellis place.

Stock Barn Burned.

Princeton, Ky., April 19.—A stock barn belonging to John H. Hewlett, near Crider, this county, together with its contents, consisting of a horse belonging to William Harris, colored, some farming implements, straw and hay, was destroyed last night by fire. The loss is about \$1,000.

Rebuilding Fifteenth Street.

The city hands are engaged in tearing up and regrading West Fifteenth Street in front of Bethel College. When rebuilt and rolled it will be in a much improved condition.

Milk is obtained in the Philippines mainly from the carabao.

BULGARIAN RIOTERS

Still Trying to Provoke Trouble By Invading Serbia.

GERMANS ARE REINFORCING.

And Principal Fighting is Still Going on in The Eastern Field.

London, April 21.—"It is semi-officially announced," says Reuter's Nish correspondent, "that two fresh inroads into Serbian territory have been made by irregular bands of Bulgarians."

In addition, news comes from German southwest Africa of another successful operation by Gen. Louis Botha's army, which has occupied the important town and railway junction of Keetmanshop, which is a German base in the southern part of the colony.

Further details also were published yesterday of the British capture of Hill 60, near Ypres. Very severe fighting, in which both sides suffered heavy losses, took place at the point. The British success is declared by Field Marshal French to be an important one, as it gives the British guns command of a considerable area occupied by the Germans and paves the way for an attack on the passages of the Lys, by means of which the towns of Lille, Roubaix and Turcoing can be approached.

Along the rest of the western front, there has been considerable fighting at separate points, but no battles of importance have occurred.

In the eastern zone, the Russians have been busy repulsing Austro-German attacks in the direction of Stry and to the southeast of Lupkow pass, and have themselves captured another height on the eastern Ruzanka chain of the Carpathians.

The British admiralty reports a brilliant "cutting out" operation in the Dardanelles. Young officers and seamen from British ships volunteered for the dangerous task of destroying the submarine E-15 which stranded under the Turkish guns and which it was essential should not fall into the hands of the Turks. They did their work well, and all that was left of the craft was a tangled mass of iron from which the Turks are not likely to learn any of the secrets of the latest British submarines. Although the plucky crews in their little boats were subjected to a heavy fire, they escaped with the loss of one man.

The Austro-Italian situation is still shrouded in mystery. A German wireless dispatch says that the recent frontier incident has been settled, but dispatches by way of Paris describe the position as hopeless. It also is reported tonight that martial law has been proclaimed in Trent owing to disorders.

As To State-wide.

Isn't it strange that the small proportion of the newspapers in Kentucky that are advocating State-wide prohibition are all opposed to the holding of a convention before the primary? If the masses, the great common people, of Kentucky, are clamoring for a chance to vote on the question, particularly the Democrats, as the four-flushers say, where is the objection to incorporating prohibition as an issue in a State platform? This can be done easily, if the sentiment for it is as they would have it appear. If the sentiment for prohibition is so strong, what is there to prevent incorporating that measure in a plank in the platform, then, by making it a Democratic measure?

No, the fact of the business is that all such talk is just made with the idea of working on the prejudices of those of a fanatical turn of mind. Prohibition has no right to be figured as a Democratic measure until it has been adopted as such by the Democratic party in convention assembled.—Shelby Record.

fore Thursday.James Gossom, a former Ken-
tuckian from Warren county, has
been appointed Mayor of Terre
Haute to succeed the deposed M. or
Roberts. If Mr. Gossom is as good
a man as Hopkinsville's representa-
tive in Terre Haute, Dr. R. L. Wood-
ard, he ought to make a first class
Mayor.The report seems to be confirmed
that Grand Duke Nicholas has for a
month been disabled from a wound
in the abdomen, inflicted by General
Seivers. When reprimanded for suf-
fering the Tenth army to be defeat-
ed, a quarrel ensued and the Grand
Duke slapped the General's face,
whereupon Seivers shot him and then
committed suicide. Nicholas is the
greatest military genius in Russia
and his absence from the front may
explain recent reverses in the Car-
pathians.JAMES D. BLACK IS CANDIDATE
FOR LIEUTENANT GOVERNORSHIPJames D. Black, of Barbourville, Knox County, has issued the following
statement announcing his candidacy for the Democratic nomination for Lieu-
tenant Governor in the Primary Election, August 7, 1915.

Democrats of Kentucky: Recognizing, in the fullest sense, your right
to choose at the Primary Election to be held in August, 1915, those whom
you prefer to be the candidates of the party to be voted for at the general
election in next November, I am a candidate, subject to your will to be ex-
pressed at said Primary Election, for the nomination for Lieutenant Governor
on the Democratic ticket. I am induced, in a measure, to make this announce-
ment by a desire of my own to serve the people of our splendid State in the
capacity of Lieutenant Governor, and also, in a measure, by suggestions of a
few individuals whose personal and political friendship is real and in whose
judgment I have and ought to have confidence. My past fealty to the Demo-
cratic party may be accepted by you, I confidently trust, as a sufficient
guaranty that I shall, whether nominated or not, give to the ticket you may
name and the principles for which our party stands, very faithful support,
for that course has been my habit at all times since reaching legal age. If
nominated and elected Lieutenant Governor, I promise you and the people of
Kentucky to bring to the discharge of the duties of the office the very best
service of which I may be capable. Whether or not I am equipped to properly
discharge those duties, it is not for me to say. I submit that to your judg-
ment and decision. I believe in a just and wise economy in public as well
as in private business, and cordially agree that no one should be entrusted
with responsible office who is not able and willing to perform his whole
duty to the public whose interests he asks to be commissioned to serve. I
believe those on whom the Constitution places the duty and responsibility of
legislation for the people of the State ought to industriously employ the time
the General Assembly may be in session, to needed legislation, complete that
as quickly as a proper regard for the best interests of the State will permit,
and then adjourn, diligently avoiding every unnecessary expense to the
people. I have no doubt that those who have to do in an official way with
the money of the community, or charged with the administration of public
affairs, ought to act in relation to such, according to that high standard which
the most prudent, careful, just and intelligent exercise in the conduct of
their private business. If elected Lieutenant Governor, that standard shall be
my guide in the labor the law assigns to me. In submitting my candidacy, I
invite the scrutiny of the people of Kentucky as to my fitness for the prefer-
ment thus sought.

JAMES D. BLACK.

Barbourville, Ky., December 28, 1914.

Difference Between Them.

"The king of Prussia," Napoleon
once remarked to General Gourgaud
at St. Helena, "was a real booby.
Every time he came to see me to talk
over important affairs, he never man-
aged to say anything on the subject.
He went off about shakos, buttons,
skin haversacks and a lot of other
nonsense, while I did not know a word
about such trifling military details."

Did a Lasting Work.

If the proper study of mankind is
man, then history must have the fore-
most place in any truly liberal educa-
tion. In the broad, collective view, it
is one of the most practical of studies.
The men who founded this republic
knew little of science, they never had
the advantages of a university exten-
sion course, nor had they learned
finance or plumbing or short-story
writing in a correspondence school.
But they were profoundly versed in
the history of mankind, and particu-
larly in the history of the institutions
which man has devised for the pur-
pose of maintaining his freedom, and
the work which they did in nation
making endures unto this day.

Independent Women.

Mrs. Havelock Ellis was the first
person to come out with the public
statement that the happiness of wom-
en depends upon their economic in-
dependence. She is not so much in
favor of suffrage as in work for all
women. President Taft has said the
same thing in a newspaper interview.
He believes that every girl should be
trained in some occupation which, if
followed, would make her independ-
ent of marriage as a means of sup-
port.

Nothing New.

Subbubs (arriving home) — Well,
dear, anything new happened today?
Mrs. Subbubs—The cook's gone.
Subbubs—I asked you if there was
anything new happened.

Probably Not.

"A noted hunter tells in a magazine
article how it feels to be awakened
by lions."
"Presume that when one is awak-
ened under such circumstances there
is none of the usual temptation to doze
just a few minutes longer."

Cause and Effect.

"I wonder why it is so damp and
foggy in London?"
"It's the fault of their government."
"How do you make that out?"
"They have such long reigns there."

Russia has been making plans for
the construction of great storehouses
for grain at many points.

Woman's Greatest Trouble.

Big Sandy, Tenn.—Mrs. Lucy Can-
trell, of this place, says: "Every
two weeks, I had to go to bed and
stay there several days. I suffered
untold misery. Nothing seemed to
help me, until I tried Cardui, the
woman's tonic. Although I had been
afflicted with womanly weakness for
seven years, Cardui helped me more
than anything else ever did. It is
surely the best tonic for women on
earth." Weakness is woman's
greatest trouble. Cardui is woman's
greatest medicine, because it over-
comes that weakness and brings back
strength. In the past 50 years, Car-
dui helped over a million women.
Try it for your troubles, today.—

ANNOUNCEMENTS.

We are authorized to announce

HON. A. O. STANLEY

a candidate for the Democratic nomi-
nation for Governor, subject to the
action of the primary August 7th,
1915.

We are authorized to announce

HON. HENRY M. BOSWORTH

of Fayette County, as a candidate
for the Democratic nomination for
Governor of Kentucky, subject to
the primary election August 1915.

We are authorized to announce

HON. JAMES B. ALLENSWORTH
of Christian county, as a candidate
for the Democratic nomination for
Commonwealth's Attorney, for the
Third Judicial district, composed of
Christian, Calloway, Trigg and Lyon
counties.

We are authorized to announce

HON. DENNY P. SMITH,

of Trigg county, a candidate for re-
election as Commonwealth's Attor-
ney of the Third Judicial District of
Kentucky, subject to the action of
the Democratic party at the primary
election, Saturday, August 7th, 1915.

We are authorized to announce

CLAUDE R. CLARK

as a candidate for the Republican
nomination for Clerk of the Chris-
tian County Circuit Court. Primary
August 7, 1915.

We are authorized to announce

JUDGE GUS THOMAS

of Graves county as a candidate for
the Democratic nomination for judge
of the Court of Appeals from the
First district, subject to the Demo-
cratic primary election Aug. 7, 1915

We are authorized to announce

JUDGE J. T. HANBERRY,

of Christian county, as a candidate
for re-election as Judge of the Third
Judicial District of Kentucky, sub-
ject to the action of the Democratic
primary election Aug. 7, 1915.

We are authorized to announce

HON. THOS. S. RHEA

as a candidate for the Democratic
nomination for Auditor of Public
Accounts, subject to the primary
August 7, 1915.Some Forms of Rheu-
matism Curable.

Rheumatism is a disease character-
ized by pains in the joints and in the
muscles. The most common forms
are: Acute and Chronic Rheumatism,
Rheumatic Headaches, Sciatic Rheu-
matism and Lumbago. All these
types can be helped absolutely by
apply some good liniment that pen-
etrates. An application of Sloan's
Liniment two or three times a day
to the affected part will give instant
relief. Sloan's Liniment is good for
pain, and especially Rheumatic Pain,
because it penetrates to the seat of
the trouble, soothes the afflicted part
and draws the pain. "Sloan's Lin-
iment is all medicine." Get a 25c.
bottle now. Keep it handy in case
of emergency.—Advertisement.

Turkey Was Called "Indian Fowl."

The turkey, so far as records are
known, was introduced into England in
1524, brought probably from the port
of Cadiz, where ships trading with the
Orient were accustomed to call. In
nearly all countries, inclusive of Spain,
and even Turkey itself, this bird is
called the "Indian fowl."

Jas. B. Allensworth.

Democratic candidate for Com-
monwealth's Attorney, subject to
the primary election Aug. 7, 1915,
will fill the following County Court
day appointments in the four coun-
ties of the Third Judicial District.
His opponent, Hon. Denny P. Smith,
is invited to be present and accept a
division of time.

Four splendid cloth volumes, full of
portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation.
Read in this timely, authoritative, complete, AND THE
ONLY CONDENSED classic world history—of which over
2,000,000 copies have been sold in France alone—just what has
taken place in the inner councils of Europe during the past one
hundred years. Read in these entrancing pages how Russia
has for years craftily been trying to escape from her darkness—
to get a year-round open port, with its economic freedom.
Read how Germany and Austria, fearful of the monster's
latent strength, have been trying to checkmate her and how
they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's
and the grandeur that was Rome's. He guides you through the
Middle Ages, the picturesque old days of feudalism and the crusades, I
through the Renaissance up to contemporary history, which Prof.
Grosvenor completes in brilliant manner. In the story of the past
he the secrets of today. And you will understand them better when
you get the Review of Reviews for a year—for the Review of Re-
views will give you a sane interpretation of the events that are taking
place with such rapidity. It is not enough to read the daily news
reports. Your ability to comprehend conditions, and to discuss them
rationally depends on a true interpretation of the meaning and the
"reason why" of events. In your mind you must bring order
out of chaos—and the Review of Reviews will do it for you.

Privileges Arising From Fellowship With God

By REV. WILLIAM EVANS, D. D.,
Director of Bible Course, Moody Bible Institute, Chicago

TEXT—I John 5:13-21.

Five distinct blessings are enumerated here as arising from, and enjoyed by, those who are in fellowship with God.

I. The Assurance of Personal Salvation (13). It is the privilege of every Christian to be assured of his personal salvation. To claim such assurance is not the language of charitable presumption, but a mark of confidence in the word and promise of God, who has said that every one believing in his son has eternal life. Not to believe that statement is to make God a liar (10-12). The word "know" here does not mean merely to perceive, but to know with a settled and unquestioning knowledge. The ground of assurance of salvation lies not in our feeling but in the unchangeable word and promise of God.

II. Assured Answer to Personal and Individual Prayer (14, 15). The thought of assurance of salvation leads to that of boldness in prayer. If we know that we have eternal life we know that we have boldness. If we are sons then we can speak freely with the father, and may rest assured that God not only hears but also answers our prayers. The words "according to his will" may be called a limitation of prayer, and yet it is hardly a limitation, for God's will is always best. And indeed it is just this seeming limitation that makes us free to pray: were it not so we should not feel free to open our lips to ask a blessing for fear it might be a curse, but when we know that what we ask is according to God's will we know that it can be nothing but good for us.

Unanswered yet? The pray'r your lips have pleaded.
 In agony of heart these many years?
 Does faith begin to fail, is hope departing,
 And think you all in vain those falling tears?
 Say not the Father hath not heard your pray'r;
 You shall have your desire, sometime, somewhere.

Unanswered yet? Tho' when you first presented
 This one petition at the Father's throne,
 It seemed you could not wait the time of asking,
 So urgent was your heart to make it known.
 Tho' years have passed since then, do not despair:
 The Lord will answer you, sometime, somewhere.

Unanswered yet? Nay, do not say ungranted;
 Perhaps your part is not yet wholly done;
 The work began when first your pray'r was uttered,
 And God will finish what he has begun.
 If you will keep the incense burning there,
 His glory you shall see, sometime, somewhere.

Unanswered yet? Faith cannot be unanswered:
 Her feet were firmly planted on the Rock;
 Amid the wildest storm pray'r stands undaunted,
 Nor quails before the loudest thunder shock;
 She knows Omnipotence has heard her pray'r.
 And cries, "It shall be done, sometime, somewhere."

III. Assured Answer to Intercessory Prayer (16, 17). We are encouraged here to pray for others and our encouragement lies in the fact that God has promised to hear and answer prayers. Two words are used in connection with prayer in this verse: "ask" and "pray," the former being used of an inferior to a superior, the latter of an equal to an equal. Some conditions of life, such as are meant by those sinning a sin unto death, permit us to "ask" only, while other conditions permit us to "pray." So, while we may not demand with certainty the conversion of the willful rejecter of Christ, we may nevertheless "ask" God in his behalf, and inasmuch as this sin unto death is left undefined we are therefore free to "ask" for all men. Here is our attitude toward our sinning brother—a blessed ministry of intercession; pray and God will give life.

IV. Assured Victory Over Sin (18, 19). In these verses we are assured that Christ, the begotten of God, keepeth the Christian. Victory over sin comes through the indwelling of Christ over whom Satan has no power. The words "keepeth him" denote inward power so that there would be no fall from inward weakness.

V. An Assured Knowledge of God in Whom We Have Believed (19-21). To know that we have not been mistaken in the person in whom we have reposed our confidence and faith is something worth knowing. The Christian has the assurance that he knows him whom he has believed, and he is persuaded that he has not believed any cunningly devised fable, but has trusted in the living God and Savior of the world.

DAIRY

TESTING SHOWS UP LOAFERS

No Progressive or Successful Dairy man Will Keep a Cow on Which He Does Not Make a Profit.

(By G. R. INGALLS, Wisconsin Experiment Station.)

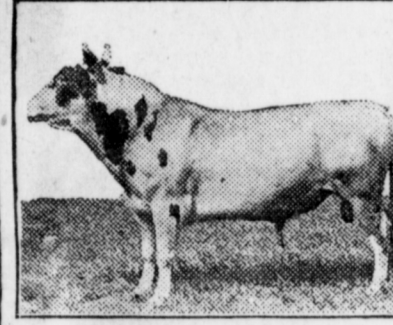

Cow testing shows the money makers. The best cows in many herds are returning a profit of \$100 or more every year. It is possible to have every cow kept do as well.

The loafers, the cows that consume more than they return, are quickly spotted and eliminated when the cow test is used. No successful merchant handles a line of goods on which he loses money; likewise, no progressive dairyman will milk a cow on which he does not make a profit. The milking of cows is a straight business proposition and no farmer can afford to spend his own time or pay high priced labor to milk cows which do not pay for their board. Let's make the \$100 return per cow our standard.

To build up a profitable herd the cow test is indispensable. It enables the dairyman to quickly get a high producing herd by selecting heifers from only the best cows. In this connection the sires that are capable of transmitting dairy quality and temperament to their offspring can be proved. The very general practice of sending mature bulls to the block, when they are just in their prime for breeding purposes, is detrimental to our dairy industry and should be stopped.

Cow testing also pays because surplus stock of both sexes sells for higher prices when buyers can see what the ancestors of these animals have done in the line of milk and butter fat production.

When using the test, farmers may

Excellent Type for Head of Dairy Herd.

know their cows as individuals and feed so as to get the greatest return for every dollar's worth of feed provided. The value of the silo in supplying fresh summer succulence during the winter months, and in helping out when pastures dry up in the summer, is also shown best when cows are under test.

CORRECT TIME FOR FEEDING

Better Results Secured by Giving Full Feeds in Morning and Night—Mix Salt With Grain.

Many feeders seem to think that the oftener they can coax the cows to eat the better, but I believe that better results may be obtained by feeding full feeds in the morning and at night and a light feed of hay about noon, says a writer in an exchange. We feed silage, grain and hay in the morning, as soon as the milking is completed, a light feed of hay at noon to induce the cows to walk directly to their places when they come in from the yard, and repeat the morning feed at night, immediately after milking. We have found it better not to feed the cows before milking time, and more especially when silage is being fed, as it is likely to impart a bad odor to the milk.

The amount of salt to feed depends upon conditions. We feed more salt than many dairymen, for the reason that when feeding corn silage we have difficulty in getting the cows to drink sufficient water, unless they have plenty of salt.

It may be one of the writer's notions, but there seems to be something about the slightly acid condition of the silage that satisfies the cow's thirst, and for that reason we mix salt with the grain feed. One ounce a day is fed to each cow in her grain ration, and once a week we give them some in their mangers.

We have water basins by the side of the cows, but the animals are turned out every day in the year while the stables are being cleaned and aired out. Our yards are well sheltered, and we seldom leave them out more than three-quarters of an hour. They are turned out in groups of ten or twelve and made to stay out until we are ready for them to come to their places. On very cold days they are not kept out long enough to get chilled.

Important Factors.

It is very often as much the fault of the milker, if the cow goes dry, as it is the fault of the cow herself. The way she is handled and the feed she is given are important factors.

OLDEST WRITING TELLS OF EXORCISING PESTS.

Clay Tablet, Dated 4,000 B. C., Describes Ridding a Field of Locusts.

Philadelphia, April 20.—A number of ancient Sumerian tablets recording the deeds of the Babylonians, thousands of years ago, have just been deciphered by George C. Barton at the University of Pennsylvania museum. One of these tablets which tells how a farmer rid his field of locusts and caterpillars, is dated 4,000 B. C., and is the oldest piece of writing extant, according to an announcement made tonight by officials of the museums. The farmer, Dr. Barton's translation says, called in a necromancer, who "broke a jar, cut open a sacrifice, a word of cursing he repeated and the locusts and caterpillars fled." For this service he received a tall palm tree.

MAKE CHAPEL INTO JAIL.

Crowded conditions at Folsom (Cal.) prison, where there are 1,203 prisoners at present, have made it necessary to turn the chapel into a barracks for the accommodation of about sixty convicts. Bunks have been built and the house of worship will be ready for occupancy within a few days.

Owing to the fact that the chapel stands by itself outside of the main cell building at Folsom, without barred windows, Warden Smith expects to have only trustees and men in whom he has confidence in the makeshift shelter.

A new record for population was set at Folsom when a 1,300 mark was reached. Previously 1,199 has been the record.

VITAL QUESTION.

Said He—You are really and truly the first girl I ever loved.
Said She—That isn't the point. Are you sure you will be the last?

NO ESCAPE FROM HIM.

"I always feel safer in a steel railway car, don't you?"
"Yes, of course, but the porter is there, just the same."

A NEW CAPITALIST.

"That's an important-looking man. Is he president of the street railway company?"
"No. He operates a jitney bus."

SIMPLIFIED SNEEZE.

"People used to take snuff to make them sneeze."
"Yes. Now you can do it much more neatly by studying Russian."

Tomato Plants.

John Bear and other leading varieties, transplanted and potted plants, at lowest prices.

T. L. METCALFE.

F-4 LIFTED AND STARTED TOWARD THE SHORE

Believed Submarine Can Be Raised Without Resorting To pontoons.

Honolulu, April 20.—The United States submarine F-4, submerged on the ocean floor outside the harbor since March 25, was raised 12 feet early to-day and towed inshore until it rested on the upward inclining bottom. The salvaging crew postponed further work until the lifting tackle was strengthened.

The satisfactory work done thus far in towing the submarine, it is believed will make unnecessary the pontoon methods of raising the craft. Diver Loughman, who became entangled in the lifting cables Saturday, is recovering slowly.

PURELY PERSONAL

Mr. and Mrs. Fox Holloway have returned from Redlands, Cal., where they spent the winter.

Walter Bennett Major, who had been on a visit to his parents, Mr. and Mrs. Edgar Major, returned to his home at Bardwell Monday. His sister, Miss Irene Major, accompanied him and will visit friends and relatives there this week.

Claude Brasher has returned from a visit to Madisonville.

Mrs. Leslie Haydon, who had been visiting in Trigg county, was called home the first of the week on account of the serious illness of her grandchild, the little daughter of Mr. and Mrs. J. C. Haydon.

Mrs. H. M. Gardner has returned from a visit to her sister, Mrs. Goodwin, whose husband has been quite ill at their home near Cerulean.

Harry Keath left yesterday for Normandy, Ky., to join a fishing party.

Mrs. Lander Meacham, who underwent an operation a week ago, is rapidly recovering at the Stuart Hospital.

Mrs. C. B. Sims and two children, of Louisville, are guests of Mr. R. C. Lawson's family.

Miss Mary Goldthwaite is visiting Mrs. S. Merrill Russell, in Louisville.

Mrs. Charles Hale, of Murray, and Miss Mary Diuguid, of Mayfield, are visiting Mrs. B. G. Rhodes.

Robert Waller, who is ill of pneumonia, is getting along nicely.

Softens New Rope.

To soften new ropes that are extremely troublesome because of their stiffness, the following is excellent. Cover the ropes with water and heat the water until it almost boils, straighten and dry them. Ropes treated in this manner work satisfactorily as soon as dry.

STATE-WIDE GO-TO- SUNDAY SCHOOL DAY

Order of Worship and Instruction, April 25, 1915.

1. Music—(Strains of sacred music played softly, at the sound of which all will be silent.)

2. Call to Worship—
Superintendent—"Oh, praise the Lord, all ye nations: Praise him, all ye people."

School—"For his merciful kindness is great towards us: And the truth of the Lord endureth forever."
Superintendent—"Praise ye the Lord."

3. Hymn—"Holy, Holy, Holy."

4. Responsive reading from the Scripture.

Leader—"The entrance of thy words giveth light; it giveth understanding to the simple."
School—"Thy word is a lamp unto my feet, and a light unto my path."

Leader—"Great peace have they which love thy law; and nothing shall offend them."
School—"Unless thy law had been my delights, I should have perished in mine affliction."

Leader—"I understand more than the ancients because I keep thy precepts."
School—"The law of thy mouth is better unto me than thousands of gold and silver."

All—"Let the words of my mouth, and the meditation of my heart be acceptable in thy sight, O Lord, my strength and my redeemer."

5. Prayer.

6. Hymn—"Savior, thy dying love."

7. Responsive Reading.

Leader—This is the second annual Go-to-Sunday-School Day appointed by the Kentucky Sunday School Association for the purpose of bringing thousands of visitors to our Sunday Schools, and of giving public recognition of the splendid work these schools are doing for our state. Last year there were about three hundred thousand visitors in the Sunday Schools on Go-to-Sunday-School Day; and since that time the schools have reported an increase of fifty thousand in enrollment.

School—How many Sunday Schools are there in Kentucky?

Leader—There are three thousand nine hundred and sixty-four Protestant Sunday Schools among the white people of Kentucky.

School—Last year we were told that the Kentucky Sunday School Association was encouraging and stimulating the work of all the Sunday Schools in our state. What special things is this Association trying to accomplish this year?

Leader—The first point of the "1915 Goal" is five hundred thousand enrolled in the Sunday School. This means an increase of about eighty-two thousand.

School—How many new members should our school have during this year?

Pastor—We ought to have an increase of at least twenty-five per cent; which would make our total enrollment

Leader—The next point in the goal is fifty thousand signers of the temperance pledge.

School—Why should we sign the temperance pledge?
Pastor—The opening words of the International Temperance Pledge give the best reason for signing it, "That I may give my best service to God and to my fellowmen." Let that be our motive in all our temperance work.

Leader—There are twelve hundred and twenty-two organized adult Bible classes enrolled in the state Sunday School office. The goal for this department this year is fifteen hundred classes.

School—Why should our organized classes enroll?
Pastor—Jesus said: "Let your light so shine before men that they may see your good works and glorify your Father which is in heaven." To enroll our organized classes is obeying the spirit of this command.

Leader—Our boys and girls are wanted in this and there is a call for seven hundred and fifty organized teen age classes.

School—Why should classes of teen age be organized?
Pastor—Every class of teen aged boys and girls should accomplish two things:—allegiance to Jesus Christ as Savior and Lord; and provide the opportunity for expression of the Christian life in service to others and the spirit of Christ. To accomplish these two things class organization is necessary.

Leader—There are two departments of the Sunday School for the people in the home who can not attend our regular Sunday services. We want six hundred home departments and one thousand cradle rolls in Kentucky.

School—Would these departments strengthen our Sunday School?
Pastor—The report of pastors and superintendents in many places is that these departments cause an increase in church and Sunday School enrollment, more active service of church members, and larger offerings for the work of the Kingdom. They are doing a great work in establishing family altars and promoting systematic Bible study.

Leader—"The supreme lack in the present-day Sunday School is the lack of a sufficient number of thoroughly equipped teachers. The way to get good teachers is to train them, hence each Sunday School should have its training class. We want to have five hundred in Kentucky during 1915."

School—How could our Sunday School have a training class?

Pastor—Our Sunday School and the Kentucky Sunday School Association will be glad to help us in this and any other department of Sunday School work. Information can be obtained by writing to the Sunday School office, 712 Louisville Trust Building, Louisville, Ky.

Pastor—There are many other things that this state association is doing, and back of it all and through it all runs the one supreme purpose of winning the world to our Lord, Jesus Christ. Always and everywhere it is the business of the Sunday School worker to lead unto "Him that is able to keep you from falling, and to present you faultless before the presence of his glory with exceeding joy, the only wise God our Savior."

8. Hymn—"Tell me the old, old story."
9. The Lesson Taught.
10. Business—Reports—Announcements.
11. Short address by the Pastor with invitation to church services.
12. Hymn—"Jesus calls us."
13. Benediction.

SOMETHING NEW HYDRATED LIME!

For Sanitary Purposes HYDRATED LIME is Superior to the ordinary Slacked Lime. It is especially adapted to making

MORTAR AND WHITE WASHING

This Lime is thoroughly pulverized, fine as flour and works perfectly in spraying machines.

A BETTER WAY TO USE YOUR MONEY.

The attention of the Kentucky Tuberculosis Commission has been called to the fact that representatives of the Children's National Tuberculosis Society have entered the State to collect funds for their work by the sale of a magazine, and probably other ways.

This Society is incorporated in Illinois and New Mexico, and maintains a small hospital for consumptive children in New Mexico. Its aims are said to be the discovery and educating of consumptives, the maintenance of this New Mexico institution, and the construction of similar hospitals in other states.

Few Kentucky families would wish to send a tubercular child alone to New Mexico for treatment. It is better to treat them near home; and the State Tuberculosis Commission is at work trying to show the counties of the State the need for maintaining visiting nurses to care for consumptives and other sick people in their homes, and to establish hospitals especially for consumptives.

The Children's National Tuberculosis Society is not working in co-operation with the State Tuberculosis Commission and is not indorsed by the Commission or the National Tuberculosis Association.

Charitably minded people in many Kentucky communities have an opportunity to give their money to well established local organizations for the support of visiting nurses, or other work, where there is no local work, contributions may more profitably be made to Hazelwood Sanatorium Louisville, a well established institution, organized and backed by leading Kentucky citizens and maintained especially for the care of consumptives throughout the state.

Garnett-Wadlington.

Mr. Walter Garnett and Miss Gertie Wadlington, of Trigg county, were united in marriage at the County Clerk's office in Clarksville Monday by Esq. J. M. Jarrell. Because of objection to the union, they eloped to Clarksville.

SAYS A MAN IN LOVE IS DIZZY.

In the May American Magazine James Montgomery Flagg, the famous wit and artist, does an amusing piece in words and pictures entitled, "Wives." Following is an extract descriptive of a man in love: "There is an impression in some circles that a man in asking a woman to marry him is paying her the highest compliment in the power. Tommyrot! A man is generally dizzy in the head when he proposes. He hasn't the vaguest idea of being complimentary—he just wants the lady to leave her home and live with him in a manner to which she is entirely unaccustomed."

DR. BEAZLEY
Specialist
(Eye, Ear, Nose and Throat.)

SAYS WOMEN ARE WONDERFUL EXECUTIVES.

David Grayson, writing "Hempfield" in the May American Magazine, says: "I think sometimes that women are far better natural executives and organizers than men. To keep a great household running smoothly, provisioned, cleaned, made sweet and cheerful always, and to do it incidentally as it were, with a hundred other activities filling her thoughts, is an accomplishment not sufficiently appreciated in this world. The true women of the race have this capacity highly developed. They have a real genius for orderliness, which is the sanity, if not the religion, of everyday life."

Head Stopped Up? Can't Breathe? Try the Vick Vap-O-Rub Treatment

Applied in Salve Form Over Throat and Chest Relieves by Inhalation and Absorption.

Vapor treatments are best for inflammations of the air passages. The vapors carry the medication direct to the inflamed surfaces without disturbing the stomach, as internal medicines will do. A very convenient vapor treatment is a good application of Vick's "Vap-O-Rub" Salve over the throat and chest, covered with a warm

flannel cloth. The body heat releases vapors that are inhaled with every breath, opening the air passages, loosening the phlegm, and healing the raw surfaces. For deep chest colds, first apply hot wet towels to open the pores. Vick's is then absorbed through the skin, taking out that tightness and soreness. 25c, 50c, or \$1.00.

Six Young Orators.

Much interest is being manifested in the Declamatory Medal Contest to be held to-morrow (Friday) night at the Christian church. This promises to be a very entertaining event. It is given under the direction of the Contest Department of the W. C. T. U. of which Miss Rosebud Wood is the excellent Superintendent, and she has been assisting the boys in their preparation for the Contest. Their well selected speeches will be rendered in a highly creditable manner and are sure to stimulate temperance sentiment in the community. The contestants are all members of the Sophomore class in the city High School; their President, Wallace Henderson, will preside and will introduce the speakers.

Everybody who is interested at all should attend and lend encouragement to these splendid young people in their efforts for this great cause.

No admission will be charged, but an offering will be gratefully received for the benefit of the W. C. T. U. Settlement School at Hindman in the Kentucky mountains.

The names of the speakers with their subjects are:

McHenry Tichenor—The Destiny of America.

William Thompson—The Decree of a Century.

Sam Torian—Young Men of Today.

Brown Wadlington—Patriotism of Peace.

John Hanbery—American Altruism and the American Saloon.

William Trahern—Prohibition a Civic Necessity.

The program will be interspersed with music by local talent. Remember the time and place—at 8 o'clock on Friday night, April 23, at the Christian church.

Old newspapers for sale here.

THREE OF FAMILY

Of Kirkmansville Die Within
Period of Two Weeks.

Mrs. Loss Pepper died at Kirkmansville a few days ago of the grip. This is the third death in the family in two weeks, Miss Ethel Pepper, their 16-year-old daughter having passed away April 12, and a young son ten days before. Mr. Pepper and another son are also ill.

Mrs. Pepper is survived by her husband and four children. She was a Christian woman and has a host of friends who will learn of her demise with sincere regret.

180,000,000 RUSSIANS ON THE WATER WAGON.

In the May American Magazine Captain Granville Fortescue writes an article entitled, "Battling for Warsaw." It is an account of the great war on the eastern frontier of Germany. Following is an extract:

"When Russia went to war the Czar with a stroke of his pen put one hundred and eighty million people on the water wagon. And, believe me, this water wagon 'ikon' is no bluff. It is harder to get a drink in Russia to-day than it is at Lake Mohonk. How wise was this edict of the ruler of Russia is now shown in the condition of his army. Their fighting effectiveness is higher than that of the French and fully equal to the English, measured by the physical fitness of the units composing the forces. On the other hand, the German soldiers nearly all carry flasks of whisky or other spirits. Irvan the Siberian knows this, and I fear that the famous edict is sometimes broken when a batch of prisoners is gathered in. The flasks are certainly contraband of war."

Complications Cause Death.

Dolly Scott died yesterday morning at her home on Wood street of a complication of diseases. The interment will take place in Riverside cemetery this afternoon.

LOST LITTLE DAUGHTER.

Only Child of Mr. and Mrs. J.
C. Haydon Passes Away.

Mr. and Mrs. J. Cline Haydon have the sympathy of a host of friends in the loss of their little daughter, Martha, who died about 5 o'clock Tuesday afternoon at their home, No. 1113 Walnut street, of stomach trouble. The child was fifteen months old and was ill only about a week. Services were held at the residence yesterday afternoon at three o'clock, conducted by Rev. Lewis Powell, of the Methodist church, and the interment took place in Riverside cemetery.

Kicked a Kicker.

Alvin Binkley, a farmer boy living near Nashville, kicked a stubborn mule and a result his foot was caught in a trace chain and he was dragged about three-quarters of a mile. The doctors fear he may not recover, as he suffered a concussion of the brain and other serious injuries. The mule dashed wildly out the gate, the boy's foot caught securely in the trace chain, and was only brought to a halt when a group of men caught him, three-quarters of a mile away. The boy's body was badly lacerated and bruised. He was unconscious when found.

Man He Couldn't Admire.

"I don't mind meetin' a man dat thinks well of hisself," said Uncle Eben. "What I don't like is to meet one dat tries to make me think he's a picture card when he knows as well as anybody dat he's only a deuce."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Rheumatism Sprains Lumbago Sciatica

Why grin and bear all these ills when Sloan's
Liniment kills pain?

"I have used your Liniment and can say it is fine. I have used it for sore throat, strained shoulder, and it acted like a charm."—Allen Dunn, Route 1, Box 88, Pine Valley, Miss.

"I am a painter and paperhanger by trade, consequently up and down ladders. About two years ago my left knee became lame and sore. It pained me at nights at times till I could not rest, and I was contemplating giving up my trade on account of it when I chanced to think of Sloan's Liniment. I had never tried it before, and I am glad to state that less than one 25c. bottle fixed me up apparently as good as ever."—Charles C. Campbell, Florence, Texas.

Clemons is Dead.

Rankins Clemons, millionaire landowner, philosopher and miser, aged 90, died at his home near Lexington Monday, following a few days' illness. So far as known he left no will. One married daughter, Mrs. Mollie Larkins, and fourteen grandchildren, with whom he refused to share his wealth, although they were in indigent circumstances, will inherit the fortune.

He's a Sport.

James Mabe, celebrated his 100th birthday March 8, by going fox hunting, at Upton, Hardin county.

Preachers Divided.

With candidate J. W. Newman speaking from a pulpit at Cadiz, candidate Henry Bosworth strongly endorsed by a prominent Lexington preacher and Harry McChesney being backed by Rev. Palmer it looks like the preachers are divided on the Governor's race like the rest of the folks.—Elizabethtown News.

Fifteen Dry Towns.

Anti-saloon forces scored important forces in municipal elections in South Dakota, reports showing that fifteen cities and towns had changed from wet to the dry columns, while only one shift from dry to wet was reported.

Force the Dominant Factor.

In a speech delivered in 1896, Lord Dufferin said: "One conviction has been borne in upon me during my long contact with the outside world—that in spite of Christianity, civilization, of humanitarian philosophies, of the lessons of history and the bitter experience of the more recent past, force and not right is the dominant factor in human affairs. . . . It would be madness on our part to be so misled and deluded by that kind of amiable optimism which always prevails among people who have had no personal experience of the real, hard, cruel conditions of national existence, as not to maintain in full vigor, by sea and land, the preparations necessary for our own preservation."

Children Cry FOR FLETCHER'S CASTORIA

IMMUNE SO FAR.

Hampton—That cigar you're smoking is strong enough to kill a mule.

Rhodes—G'wan, I've been smoking these for years!—Philadelphia Bulletin.

NATURAL RESULT.

"What did your husband say when you told him you wanted parquetry instead of a carpet?"

"It just floored him."

THE RESEMBLANCE.

"Why is a dishonest coal man like the Arabs?"

"What's the likeness?"

"Doesn't he silently steal a weigh?"

ITS DISPOSITION.

"Why do you call this boat of yours the Caress?"

"Because it is always showing a disposition to hug the shore."

Piles Cured in 6 to 14 Days

Your druggist will refund money if PAXO OINTMENT fails to cure any case of itching, blind, bleeding or protruding piles in 14 days. The first application gives Ease and Rest. 50c

In London only persons over the age of 16 may pawn goods.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The year 1914 has been the most extraordinary in the history of modern times. It has witnessed the outbreak of the great European war, a struggle so titanic that it makes all others look small.

You live in momentous times, and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World. Moreover, a year's subscription to it will take you far into our next Presidential campaign.

THE THRICE-A-WEEK WORLD's regular subscription price is only 1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

Send all subscriptions to Kentuckian office.

Millie Was Mixed.

Little Millie's father and grandfather were Republicans; and, as election drew near, they spoke of their opponents with increasing warmth, never heeding Millie's attentive ears and wondering eyes. One night, however, as the little maid was preparing for bed, she whispered in a frightened voice: "Oh, mamma, I don't dare to go upstairs. I'm afraid there's a Democrat under the bed."

Borneo Pirates.

Brunei, Borneo, is one of the strangest cities in the world. Once the headquarters of the Borneo pirates, it is a kind of eastern Venice, being built entirely over the water. This remarkable city is the capital of the state of Brunei, Borneo. All the houses are built over the River Limbang, constructed on slender piles made from the Nibong palm, a wood that resists the action of water for many years. The inhabitants of Brunei are Malays, Kadayans, Orang-Buskits, and a few Muruts. They earn their living mostly by trading with other tribes in the interior of Sarawak and British North Borneo. Some of them are very skillful brass workers, and the Brunei women make beautiful cloth, interwoven and embroidered with gold thread. Sago is grown in the valleys nearby, and a small quantity of rice is also raised. In the early part of the nineteenth century Brunei was the rendezvous of the dread Borneo pirates, and a market for the slave trade.—Wide World Magazine.

White Man With Black Liver.

The Liver is a blood purifier. It was thought at one time it was the seat of the passions. The trouble with most people is that their Liver becomes black because of impurities in the blood due to bad physical states, causing Biliousness, Headache, Dizziness and Constipation. Dr. King's New Life Pills will clean up the Liver, and give you new life. 25c. at your Druggist. Advertisement.

ACTIVITIES OF WOMEN.

Owing to the scarcity of men, London street railway companies are considering employing women as car conductors.

For the first time in the history of Vassar college the ban will be lifted on male visitors on Sunday.

The University of Washington has a fat girls' sorority in which girls must weigh 140 pounds to be eligible to join.

Leaders of women's organizations throughout the world will shortly call an international women's congress to meet in a neutral country for the purpose of discussing just what role women should assume in preventing future wars.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Care of Children's Teeth.

No care can be too great to bestow upon the teeth of children. Medicines that will bleach the teeth or injure the enamel should be taken, if at all, through a glass tube.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 25c.

HAVE HOSPITALS FOR HORSES

Animals Wounded at the Front Are Given as Much Care as Circumstances Will Permit.

At the front horses are treated with just the same care and skill as is shown to the soldiers and are given chloroform and other anesthetics before being operated upon by skilled officers. To every division and cavalry brigade is attached a mobile veterinary section, each consisting of one officer and 22 trained men of the A. V. C.

The mobile section is divided into two subsections, one employed in collecting sick and wounded horses from the firing line and other places, while the other branch conveys the patients to the nearest rail head. Thence they are sent by train to the nearest base veterinary hospital, where they are treated according to the nature of their wounds or sickness.

Each hospital has accommodation for some thousand or more cases, and is equipped with every requisite for medical and surgical use. When sufficiently recovered the horses are drafted to the convalescent farm, where the cure is completed.

Whole Family Dependent.

Mr. E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine-Tar-Honey." Maybe some one in your family has a severe Cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar-Honey is an every ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Druggist 25c.—Advertisement.

Two Groups of Spiders.

Roughly speaking, spiders may be divided into two groups—the sedentary spiders, who spin a snare for the capture of their prey, and the roving spiders, who employ other methods for obtaining food. To this last class belong the jumping and wolf spiders, both of which present features of considerable interest. The jumping spiders are an important family, numbering several thousand species, but they do not show to advantage in temperate climates; their home is in tropical countries, where they attain a metallic glory of coloring which can vie with the brilliance of the humming birds. The eyesight of these spiders is very keen, and it is a curious fact that certain species can alter the color of their eyes by a movement of the internal mechanism.

If you have a house or building of any kind that you want moved see R. C. Lawson or call Cumberland phone 878-2. Advertisement.

Keep Up the Effort.

Fight like a good soldier; and if thou sometimes fall through frailty, take again greater strength than before, trusting in my more abundant grace.—Thomas a Kempis.

Children Cry FOR FLETCHER'S CASTORIA

The blossoms of the bassia tree are depended on to a very large extent for food by the natives of parts of India.

HIS CHICKEN PIE COST \$50

New York Public Service Commissioner Files Unique Expense Voucher—Is Disallowed.

The expense account of the New York public service commissioner was placed before the committee recently. Chairman Van Santvoord recited that Van Santvoord had entered an 80-cent charge for "chicken pie and sundries trifled with" at a cafe in Poughkeepsie. The item was followed by this entry:

"Paid for trained nurse and medical attendance at my house, between 12 a. m. and 7 a. m., made necessary by the last above-mentioned alimentary indulgence—including amount given to charity in expiation of the sin of excessive use of language during said painful experience—\$50."

This explanatory note was attached:

"Because timidity is the better part of graft, no claim for reimbursement is made for this last-mentioned item, but if the honorable comptroller can stretch his conscience to the extent of allowing the claim, deponent will not scruple to receive the amount."

The comptroller's conscience did not stretch. The claim was disallowed.—New York American.

Man Takes His Own Medicine Is An Optimist.

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating Cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a Cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery to-day.—Advertisement.

PROTECTING THE ELK.

The forest service reports that it made two "plants" of elk last year, viz., one of 24 head on the Colorado forest and one of 23 head on the Sopris forest. Since the distribution of elk began three years ago a total of about five hundred head have been planted in 11 national forests by the forest service, the biological survey and certain states, in nearly every case with successful results.—Scientific American.

THE REASON.

"Will you countenance me in this?"

"Why do you want me to countenance you?"

"Because otherwise I will have to face the consequences."

A CLOSE SHAVE.

"He says he found it hard to tear himself away from his old home town."

"If a warrant had been served in time he never would have done it, either."

A CHANGE.

"So your husband can't take the mud baths in Europe this year?"

"No, but he has been trying to get an immunity bath at home."

STRANGE LOSS.

"William lost almost everything in that illumination scheme."

"That was odd—to experience heavy losses in a light investment."

KEEPS PUTTING 'EM UP.

"I won't bet with you," said the baker; "you haven't the dough."

"Oh, I guess I can put up the stakes," replied the butcher.

HIS NAME.

"Matilda's husband, I understand, is crazy about the races."

"Yes; she calls him her better half."

To Drive Out Malaria And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC.

You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

Panama Canal.

The Panama canal route shortens the sea journey between New York and the west coast of the United States by more than eight thousand miles.

How To Buy A Piano

After you have made a thorough investigation of the different methods of selling pianos just figure what you can save if you buy direct from the factory. Remember, a retailer has large expenses in selling a piano, besides his profit. You can save all of this at our factory.

We make as fine pianos as are manufactured anywhere, and we sell direct to the homes. We never sell through dealers or agents, but we will give their profits to you. The Adler Piano received the highest award at the National Conservation Exposition at Knoxville in 1913. You can try an Adler Piano in your home free. You can put it to any test and make any comparison you desire. You do not obligate yourself to purchase. Ship it back at my expense if you are not more than satisfied to keep it. We plan on selling direct from the factory saving you \$100 to \$150. If it is not convenient to pay cash, you can use my strictly confidential "Charge Account Plan" whereby you can pay in small amounts to suit you, and without interest.

Send No Money In Advance

Send today for free catalog showing our pictures and prices of Adler Pianos. Select the style you would like to try, and it will be sent to you. No matter whether you are thinking of buying an instrument now or some time in the future, you will want all about the latest, square and most liberal piano buying proposition you ever heard of. Every piano guaranteed for 25 years, backed by my million-dollar factory. A postal today will bring my free book and selling plan.

Children Ory FOR FLETCHER'S CASTORIA

DAIRY

KEEP BUTTER DURING WINTER

To Retain its Quality Temperature of
Cellar Should Be Maintained as
Low as Possible.

A supply of butter that will keep
through the winter is much desired on
most farms, but many find it difficult
to produce it. There are two or three
secrets that must be observed. First,
if the cellar is musty, it must be care-
fully scraped and cleaned and the side
walls and ceiling swept. Then it will
be well to whitewash it carefully with
a little formaldehyde in the lime. To
spray it with a force pump is easy.
Fumigation with at least a pound of
sulphur is another way of destroying
the musty germs. The cellar should be
closed tightly for several hours while
the fumigation is in process.

What makes a cellar damp or
musty? Usually it is because some
thrift person is anxious to keep it
sweet and lets in the warm air of the
day. Warm air contains a large
amount of moisture, which is precipi-
tated upon the cold walls, and it natu-
rally follows that the cellar is first
damp, then musty and, later, moldy.
Ventilate cellars only during cold
nights.

Now the butter. The cream should
be ripened only to a point of pleasant
acidity. Stop the churn when the
granules of butter have begun to come
and have massed to the size of kernels
of wheat. Draw off the buttermilk and
put in an equal amount of clear, cold
water. Revolve once or twice and
draw, repeating this washing until
the water runs out clear. Then salt
one ounce to the pound with best
dairy salt, mixing it in the fine grains
in the churn by revolving or stirring.
Next mass it into balls and set it aside
to settle until the next morning.

Then work the butter a second time,
and pack it hard into sound, sweet,
stone jars, and over its hard-pressed,
level top, spread a disk of paraffin
paper wet. On this lay fine salt an
inch deep. Then tie a tough paper over
the top to exclude dust, and place the
jar at once in the coldest, cleanest
part of the cellar. To make butter re-
tain its quality, the temperature of the
cellar should be maintained at as low
and even a temperature as is possible.
Vegetables and other things that may
produce odors must be excluded.

Do not be persuaded that the addi-
tion of saltpeter or sugar or any other
substance is necessary to the preser-
vation of butter. Salt alone is needed,
and one ounce to the pound is suffi-
cient. Never use a cracked or musty
or "lardy" jar. The old-fashioned
stone jar that is well glazed has never
been superseded by anything better
for holding butter. Where butter is
to be consumed soon, of course, the
washing is not needed, and the flavor
will be higher if the buttermilk is not
washed out.

PROFIT FROM GUERNSEY COW

Most Satisfactory Results Shown by
Records—Limit of Production
Not Yet Reached.

More than three thousand yearly
records of Guernsey cows have now
been completed. These show an av-
erage milk yield of 8,544 pounds milk
and 426 pounds butterfat. More than
one-third of the cows tested were
helpers with first calf, which makes
the showing all the more creditable.
Of this number 564 gave from 10,000

A Guernsey Calf.

to 19,000 pounds milk and from 500 to
1,000 pounds butterfat.

The 35 cows highest on the list gave
an average of 14,597 pounds milk, and
771 pounds butterfat with a test of
5.28 per cent. This is over two pounds
butterfat a day right through the
year and is a very satisfactory show-
ing. Guernsey records show over 82
pounds milk in one day and 2,361
pounds in 30 days. The limit of pro-
duction is not yet reached.

Hard to Educate Cow.

You cannot buy a cow that has been
educated three or four years on other
lines, and by any means of care and
feeding, make her what she would
have been if you had her at the outset.

Make Friends With Heifers.

Take care of the heifers. It is from
them the herd is re-enforced. Handle
them when they are young and get
them to accept things with good na-
ture.

Nearly Smothered.

Chandler, N. C.—Mrs. Augusta
Lomax, of this place, writes: "I had
smothering spells every day, so bad
I expected death at any time. I could
not sit up in bed. I suffered from
womanly troubles. My nerves were
unstrung. I had almost given up all
hope of ever being better. I tried
Cardui, and it did me more good
than anything I had ever taken. I
am better now than I ever expected
to be." Thousands of ladies have
written similar letters, telling of the
merits of Cardui. It relieved their
headache, backache and misery, just
as it will relieve yours, if you will
let it. Try Cardui.

DAIRY FACTS

WINTER FEED FOR THE COWS

Important for Dairyman to Provide an
Abundance of Different Feeds to
Keep Up Milk Flow.

(By R. G. WEATHERSTONE.)

During the winter months it is gen-
erally found difficult to provide such
food as is necessary for the dairy cow
to keep up the regular flow of milk.

At this season of the year feed is
generally scarce—the proper kind for
the dairy cow—and that which we
have on hand is often of an inferior
quality.

After coming off the green fresh
grass they do not relish such dry feed
and being of an inferior quality one
will soon notice a great decrease in
the flow of milk.

For this reason it is very important
for the farmer to try to provide an

A Fine Type of Dairy Cow.

abundance of different feeds to make
up for this dry or inferior feed.

Of course the flow of milk cannot
be kept up to what they give during
the spring and summer when pastured,
but with plenty of first-class hay, such
as alfalfa and good clover, and fine
feed of bran and corn meal kept on
hand that it may be fed liberally two
or three times a day as slops, there
will not be so much decrease in the
milk supply after all. That is, if it is
given to them liberally and regularly.

Do not think it is a waste to feed
such feed when there isn't anything
but dry hay of some kind to feed on.
On the latter, the cow can barely
maintain her flesh, much less keep up
the milk supply.

When we have good clover hay and
alfalfa, not so much of the bran, fine
feed or meal is required, as both, when
cured properly, are very strong feeds
and cattle thrive on them.

I am not going to attempt to give
the amount that should be fed, as I
leave that for the dairyman to decide
for himself. What I wish to impress
upon the reader's mind is this: The
necessity of having on hand always a
liberal supply of bran, meal, fine feed,
etc., to go with the dry hay or corn
fodder, which is generally of an in-
ferior quality, fed at this season of the
year.

Without the above feed mentioned,
it is impossible for the dairyman to
obtain good results during the season
when cattle are not pastured.

TASK OF DEHORNING CATTLE

Operation is Most Frequently Per-
formed to Prevent Animals From
Injuring Each Other.

Cattle have been dehorned since
about 1790. The operation sometimes
is performed to remove horns that are
broken or otherwise injured, but most
frequently it is to prevent horned ani-
mals from injuring one another. Us-
ually it is considered justifiable on ac-
count of the benefits that are derived
from the operation.

The growth of horns on calves may
be prevented entirely by the liberal
use of a strong solution of ordinary
lye; or if the use of a solution is not
desirable it can be purchased at drug
stores in the form of sticks known as
caustic potash. This should be ap-
plied immediately after birth to the
place where the horn makes its ap-
pearance. Care should be exercised
when using this remedy because the
lye will eat away all the skin with
which it comes in contact.

Various kinds of instruments are
used for the removal of the horns of
older animals. If an ordinary saw is
used it should be sharp and fine, as
this lessens the danger of splintering
the bones of the head during the oper-
ation. If a large number of animals
are dehorned, quicker and safer work
can be done with a "dehorning in-
strument." This can be purchased
of any veterinary supply company for
\$7.50 to \$10.

It is best not to dehorn during the
fly season. Sometimes the horn is
cut close to the head and cavities are
opened which become filled with mag-
gots if flies are prevalent. The ani-
mal suffers intensely, if this happens,
and there is a rapid loss in condition.
If cavities are accidentally exposed
a small piece of cotton, smeared with
tar, may be applied to the wound and
held in place by means of a bandage
around the head. This also is of great
value if excessive bleeding follows the
operation. If maggots gain entrance
to the cavities of the head they should
be washed out with a weak, watery
solution of ordinary dip.

GERMANY OFFERS TO MAKE REPARATION

Notifies Holland That if a Submarine Sank the Katwyk It Was a Mistake.

London, Apr. 19.—The German government's willingness to make reparation for the sinking in the North sea last week by a German submarine of the Dutch steamer Katwyk, is indicated in a Reuter dispatch from Amsterdam. This message says semi-official announcement was made today at The Hague that the German government, acting on its own initiative, sent the following declaration to the Dutch government:

"Neither the German government nor the German naval authorities, as is self-evident, had the intention of attacking a Dutch vessel. Notwithstanding this, the German government believes it possible that, owing to an unfortunate accident, the Katwyk has been torpedoed by a German submarine.

At once, after the event became known, the German government ordered an inquiry and requested the Dutch government to send to Berlin an official report on this subject which can give enlightenment. Inquiry proves that the Katwyk has been sunk by a German submarine, the German government will express unhesitatingly its sincere regret and offer full compensation.

LOUISVILLE PLANS

TO REGULATE JITNEYS.

Louisville, Ky., April 19.—Two hundred Louisville jitney bus drivers or their attorneys were present at an open meeting held today by an aldermanic committee to which had been referred an ordinance proposing to regulate the operation of jitney busses in Louisville. The ordinance, as framed, calls upon every jitney bus owner to put up a heavy cash bond for the purpose of indemnifying passengers or pedestrians who may be injured through the negligence of careless drivers.

Attorneys for the jitney busmen argued that the law as proposed "is class legislation, pure and simple."

Many persons openly assert the measure was drafted in the interest of the street railway. The trolley people deny this.

ILLITERACY CENSUS.

The school trustees of Kentucky will be given an opportunity to play an important part in the illiteracy campaign. They are being asked by the County Superintendents, the State Superintendent and the Kentucky Illiteracy Commission to take a census in April, at the time when they are taking a census of the pupil children, of all who cannot read or write. Their names will be reported to the Kentucky Illiteracy Commission, at Frankfort. This is a move in the right direction. No doubt, the trustees will count it a high privilege to serve the State in this way. It will require very little extra exertion, and will help to show Kentucky's real standing. Also it will enable the Kentucky Illiteracy Commission to know where illiteracy is most prevalent, and it may be sending out the life-line to many a deprived man or woman. School authorities are lending hearty cooperation, and the public will await the results with interest. Above all things, this census should be accurate. There is nothing to be gained by either concealing or overestimating the illiteracy of a county.

Proclamation of the Governor.

TO THE PEOPLE OF KENTUCKY:

The first state-wide Go-To-Sunday-School day was observed with marked success on May 3, 1914, at which time the Sunday School attendance in our state increased from three hundred thousand to six hundred thousand, and fifty thousand of these visitors became permanent members of the Sunday School; and the success of this day in Kentucky has led other states to appoint Go-To-Sunday-School Days.

The Kentucky Sunday School Association has appointed April 25, 1915, as the second annual Go-To-Sunday-School Day and has planned a campaign for new members for the Sunday School in every part of the state.

The Sunday Schools of all denominations will observe this day and are issuing invitations to all our citizens to attend Sunday School on April 25, 1915.

All those who desire a Christian citizenship for our state should unite in the hearty support of every movement which makes for character and Christianity.

The Sunday School has something for every life and all of life.

Therefore, I, James B. McCreary, Governor of the Commonwealth of Kentucky, call upon all Kentuckians and the visitors within our borders to attend Sunday School in the church of their choice on April 25, 1915, that they may give encouragement and honor to those who teach in these schools, that they may see the work which is being done, and that they may in this service worship their God.

In Testimony Whereof, I have caused these letters to be made patent, and the seal of the Commonwealth to be hereunto affixed. Done at Frankfort, the thirty-first day of March, in the year of our Lord, one thousand nine hundred and fifteen, and in the one hundred and twenty-third year of the Commonwealth.

JAMES B. MCCREARY,

By the Governor
C. F. Creelius, Secretary of State,
By Cecil H. Vansant, Ass't Secretary of State.

APPEAL WILL BE BASED ON JURISDICTION

**Evidence on Which Men Were
Convicted Will Not Be
Considered.**

Indianapolis, April 20.—The appeal of Donn M. Roberts and others convicted in the Terre Haute election fraud case will not be based upon the evidence submitted at the trial here, it was said by the Roberts' counsel tonight. The attorneys stated that the appeal would be based on the contention that the federal court has no jurisdiction in the cases and that the elections are under the absolute control of the state. The transcript of the appeal is now being prepared, the attorneys said.

MOONLIGHT SCHOOL

CONTESTS CLOSE

The contests between teachers and trustees for the prizes offered by Kentucky's statesmen for the best moonlight school were very warm ones, many being in close competition for the prizes. The sworn reports of teachers and letters from adults who had been taught to write showed excellent results for the sessions of 1914.

Adair county captured the grand prize, \$50 00, offered by Senator O'lie M. James for the best moonlight school in Kentucky. Mrs. W. L. Russell was the winner.

McCreary and Hardin counties won the \$50 00 prize of Senator J. N. Camden to the trustees who best promoted the moonlight school work. W. P. Johnson, trustee at Barren Fork, McCreary county, and Rev. A. P. Fryrear, of Hardin county, tied for the prize, and the Kentucky Illiteracy Commission divided the prize between them. Mr. Johnson is an old soldier and fought in the battle of Gettysburg. He climbed a cliff each evening to be in the moonlight school and taught one of the classes. He is 70 years of age. Rev. Fryrear has served 28 years as school trustee, having the longest term of service of any trustee in the State. He is 70 years of age and a Baptist minister. He put forth a heroic effort to make the moonlight school in his district a success.

Congressman W. J. Field's prize of \$25.00 for the best moonlight school in the Ninth District was won by Bath county. This was the most heated of all the contests, there being some excellent schools in Mason, Montgomery, Rowan and other counties, which ran the prize school in Bath a close race. Virgil Jones, a young teacher, won the honors for Bath.

Congressman J. Campbell Cantrell's prize of \$25 00 for the best moonlight school in the Seventh District, was won by Dudley Caudill, of Powell county.

Congressman John W. Langley's prize of \$25.00 for the best moonlight school in the Tenth District, was won by W. R. Thomas of Floyd county.

Attorney General James Garnett's prize of \$10 00 for the best moonlight school in Adair county, was awarded to Mrs. W. L. Russell.

State Senator J. R. Zimmerman's prize of \$10 00 for the best moonlight school in Bullitt county, was awarded to Miss Mary Dawson.

The Bank of Clarkson's prize of \$10.00 for the best moonlight school in Grayson county was won by A. K. Witten.

The Kentucky Illiteracy Commission's prizes for the best moonlight school stories were won by the following: First prize, Miss Laura Smythe, Adair county; second prize, Miss Maud Bishop, McCreary county; third prize, Miss Lottie L. Richards, Rowan county.

Has Had Many Rulers. The name Roumania comes down from the days of Roman rule, the country previous to that being overrun by semibarbaric Getae and Dacians. Its vicissitudes, transformations, malformations and reformations have been innumerable, being ruled by this and that exploiting nation, and it only reached its present independence after the Russo-Turk war of 1877, and with the settlement for that time of the "Eastern question" by the congress of Berlin in 1878, Roumania became an area and impulses the little kingdom of today.

Got Rehearing.

The hog cholera experiment station at Henderson will not be discontinued, owing to the efforts of Senator James.

PRESIDENT GARFIELD

UNDERSTOOD THE LAW

OF ADVERTISING

The following interesting story about President Garfield is told in the May American Magazine.

"James R. Garfield, of Cleveland, son of the late President Garfield, told one of the editors of The American Magazine the following story about traveling in 1878 as a boy with his father, who was campaigning. One night, after a speech in Michigan, young Garfield said to his father: 'Why do you repeat so much? Do you know that you said the same things several times to-night? Do you know that you said the same things to-night that you said this afternoon in Detroit?' General Garfield made this reply: 'You happen to be an especially interested party and notice these repetitions. Others do not. I repeat the same statements deliberately in order that people may finally get them. Anything that I want an audience to get and remember I repeat several times—in somewhat different form perhaps. This practice I have developed out of my experience which has shown me that people's attention is distracted in various ways and that a first or second statement may not really get to them. You must insist on an idea or fact if you want to get anywhere with it.'"

Farmer Found Dead.

Madisonville, Ky., April 20.—Newt Lennie, 60, well-to-do farmer living two miles south of Hanson, was found dead in a field a short distance from his home this morning by his brother and daughter. Mr. Lennie had gone to the woods to dig May apple roots. Members of his family, becoming alarmed when he failed to appear at the house when expected, began a search for him. Coroner Stevens was called and an inquest held, the verdict being death due to a stroke of apoplexy. Mr. Lennie is survived by a wife and four children.

Propounds a Conundrum.

If it is right for the "dry" counties to vote the "wet" counties "dry" then why is it not right for the "wet" counties to vote the "dry" counties "wet"? It is a poor rule which will not work both ways.—Elizabethtown News.

Women Hold Balance.

T. M. Puckett, a democrat, was elected mayor of Mt. Carmel, Ill., Tuesday by a small majority over James Carson, republican. The vote was heavy. Four democrats were successful and six republicans. One-third of the votes were cast by women.

Austria has the finest collection of orchids in the world.

GIRL BADLY INJURED

BY SHOT FROM AMBUSH

Louis, Ky., April 20.—An attempt, from ambush, to assassinate Mrs. Mary Flynn and her 17-years-old daughter, Rosa Flynn, was made at their home near Fallsburg, six miles from Louis, last night. The girl was seriously wounded. An examination showed that one buck shot penetrated the right breast and another cut a long jagged gash along the side of her head. The women were returning, carrying a lighted lamp, from the barn, a short distance from the house when they were fired on. No clue as to the identity of their assailant has been found.

Microbes That Eat Rubber. If your automobile tires or your rubber boots don't wear so well as they should it may be because microbes are eating them. When perfectly dry commercial rubber is not capable of furnishing nutriment to any form of microbe, but when sufficiently moist it is frequently attacked by certain bacteria or molds which feed on the albuminoids, resins and sugars it contains. The red, yellow, brown and black spots which often appear on rubber are due to the presence of microbes. At least two varieties of microbe are able to assimilate the hydrocarbon of rubber and by so doing destroy its value.

Evansville's Take-Out.

Recently compiled official figures place the gold production of Alaska to the close of last year at \$228 392,540.

BIG WAR CONTRACT

ABOUT TO BE LANDED BY

HOPKINSVILLE CONCERN.

It is rumored that a High Official of the Russian army has been in the city within the past week negotiating for a large quantity of War supplies for the army. It is understood that a recent order from Petrograd requires all soldiers to take their annual shave July 1, and the reputation of the EUREKA "MULE HOE" as a clean cutter having reached the Czar, he gave orders to investigate and if found practicable to place his order for a large shipment.

We have no doubt but that the contract will be placed, as the Mule Hoe not only saves the work of six men hand hoeing, but is the most efficient tool ever invented for the shallow cultivation of Corn and Tobacco, not only killing the weeds but mulching the soil, which retains the moisture and keeps the plants growing in dry weather. Further information about the WAR that has been declared on the Weed Pests of Christian county can be had by calling on your dealer or writing "MULE HOE" Pratt, Hopkinsville, Ky.

A TEXAS WONDER

THE Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for testimonials from this and other States.
